

Join Us in Making a Difference

At Loudoun Volunteer Caregivers, we believe that neighbors helping neighbors is one of the most powerful ways to build a stronger, more compassionate community. Our volunteers are the heart of our mission, providing essential services that help older adults and adults with disabilities live independently, safely, and with dignity. Whether you have a few hours a week or just a little time each month, there's a meaningful way for you to get involved. From driving someone to a doctor's appointment to delivering groceries, assisting with finances, or simply offering a friendly visit, your time and care can change lives.

Who We Are

Loudoun Volunteer Caregivers provides free, door-through-door transportation—including wheelchair-assisted transport—to homebound older adults and individuals living with disabilities. This level of support goes far beyond traditional curb-to-curb services offered elsewhere. Our volunteers physically assist care receivers from inside their homes, safely into vehicles, through medical facilities or service locations, and back home again. This ensures safe mobility for individuals who would otherwise be unable to access critical medical care, groceries, or community resources.

We also recognize that transportation alone, while vital to health, safety, and well-being, is not enough to help vulnerable residents remain independent. Many of the individuals we serve face multiple challenges, including food insecurity, financial vulnerability, social isolation, and limited family or community support. For this reason, LVC provides an integrated range of services: food delivery for homebound residents, friendly visits and phone calls to reduce isolation, minor home support to ensure safety, and financial management assistance for those who cannot manage their own benefits.

This holistic approach sets LVC apart. By ensuring that care receivers have reliable transportation, stable access to food, meaningful social connection, and responsible financial oversight, we help individuals not only live independently, but also thrive with dignity, security, and continued connection to their community.

Transportation Volunteers

Transportation Volunteers provide essential rides to older adults and adults with disabilities who are unable to drive. Volunteers use their own vehicles to transport care receivers to medical appointments, grocery stores, pharmacies, and other errands, helping them maintain independence and access to vital services. Volunteers provide "door-through-door" service in which volunteers ensure care receivers make it safely from inside their homes to inside their destinations, and back.

This flexible role allows volunteers to choose when and how often they drive, based on their availability. Volunteers must have a valid driver's license, a clean driving record, active auto liability insurance and a compassionate, patient attitude.

Care-A-Van Assistants

Care-A-Van Assistants partner with our Care-a-van drivers to provide support for care receivers who require wheelchair assisted transportation using LVC's wheelchair accessible van. Volunteers provide "door-through-door" support and help care receivers board and exit the van, ensure safety during transport, and provide friendly companionship throughout the trip.

This role is ideal for those who enjoy working with people and want to make a tangible difference in someone's day. Volunteers must be comfortable assisting individuals with mobility challenges and working as part of a team.

Food Delivery Volunteers

Food Delivery Volunteers bring groceries and pantry items to care receivers who are homebound or have limited access to food. Volunteers pick up pre-packed items from Loudoun Hunger Relief or Dulles South Food Pantry and deliver them directly to the care receivers' homes.

This role is perfect for those who want to help ensure food security in the community with minimal time commitment. Volunteers should be reliable, organized, and able to lift light to moderate bags or boxes.

Supportive Services Volunteers

Supportive Services Volunteers provide a range of assistance to help care receivers remain safe and comfortable in their homes. Tasks may include light housekeeping, running errands for the care receiver, friendly visits, phone check-ins, or minor home maintenance.

This role offers a meaningful way to build relationships and reduce isolation among vulnerable neighbors. Volunteers can tailor their service to their skills and interests, and LVC provides training and support to ensure a positive experience for both volunteers and care receivers.

Money Management Volunteers (Representative Payee Services)

Money Management Volunteers serve as Representative Payees for individuals who are unable to manage their own federal benefits due to age, disability, or other challenges. Volunteers help ensure that clients' Social Security or other benefits are used appropriately to meet basic needs such as housing, food, and medical care. This role involves budgeting, bill payment, recordkeeping, and regular communication with both the client and LVC staff.

Volunteers receive training and ongoing support to navigate the responsibilities of this highly trusted position. Ideal candidates are detail-oriented, organized, and compassionate, with a strong sense of ethics and confidentiality. This role offers a unique opportunity to provide financial stability and peace of mind to some of the most vulnerable members of our community.

Administrative/Events/Fundraising

This volunteer position provides a meaningful way to support Loudoun Volunteer Caregivers' mission by assisting with essential office tasks, contributing to fundraising efforts, and helping plan, prepare, and participate in LVC events. Volunteers in this role play a key part in strengthening our operations and ensuring our programs continue to serve older adults and adults with disabilities across Loudoun County.

Volunteer Support and Training

All LVC volunteers receive a comprehensive orientation along with role-specific training tailored to their responsibilities.

Our goal is to ensure every volunteer feels confident, prepared, and supported from day one. Ongoing guidance, resources, and staff availability are built into the experience, so volunteers never feel they're working alone. Your success and the impact you make matters to us.

Commitment

In addition to attending Volunteer Training, Volunteers are asked to commit an average of one to four hours per week based on their role and number of assignments.
